

There are those of us that have had the opportunity to own some Harvey-Wells radio equipment. We can vouch for well built, popular amateur radio gear.

W1ZD John Wells a Harvard grad and Clifford Harvey W1RF educated at MIT, were co-founders of Harvey-Wells Electronics Co. in 1939. Harvey-Wells designed and manufactured equipment for the amateur fraternity, police and public safety plus the aviation industry.

John Wells 1903-1989

Cliff Harvey 1908-1987 had experience in the field founding Harvey Radio Labs in 1935.
