

***Dedicated to Ken Genheimer \*1929-2005\*W8KEG/W8GGX - Ken has done it all, flying, building and dozens of other interesting activities with his wonderful wife Marge. He has been a part of my life for many years in the professional and amateur radio realm. His steady Morse sending and interesting conversation over the years will never be forgotten. Ken served his Country in the Military and a public servant in The Ohio State Highway Patrol Communications Division, Columbus, Oh. Not many will ever know about Ackerman Road and what it accomplished and how it operated. Truly this operation was "The Gateway To The West."***
