

Myron E. Hornbaker WØGFU *1924-2003* To Earl (operated family farm) and Clara Hornbaker of Fowler Twp Meade County KS. The Hornbaker's had 3 boys; Myron age 16; Marvin age 9 and Earl age 3 in the 1940 U.S. Census.

It is apparent that Myron received loving care and unfortunately suffered with cerebral palsy and confined to a wheelchair. He found ham radio and never looked back. Myron loved to operate his radio frequently and made many friends thru the air waves.

As usual our pal Bob Green W8JYZ has Myron's card in file. See Old QSL Cards Dot Com. He has a wonderful web-page where you can spend many satisfying hours.

Again our adopted friend K8ABP Mr. Lamphier's extensive records had Myron Hornbaker listed and the following short notes; Myron suffers cerebral palsy and confined to a wheelchair - call issued from Kansas.

We feature a family picture on Ancestry net of brothers Marvin and his older Myron WØGFU (sitting) taken when they were kids on the farm. I can hear the corn fields make that summer time beckon along with the open bedroom window where Myron had his station, the dot dash of the CW and phone station WØGFU and enjoyment it provided.

Considering Mr Hornbaker's health condition and ailments he lived to be age 79 and expired in his home area Fowler, KS 5 March 2003. Credit family pictures to Markleycdf - Ancestry QSL card to W8JYZ @ Old QSL Cards Dot Com - W8SU 2013
