

**Art E. Lewis W3VKD - W3LXE - W8CNZ - W3TV 1907-1997 of Indiana Pa.**, a radio engineer, and business man. Art the Originator of a very popular Amateur Radio aid, "Ham Register" He earned his first ticket in 1927. I have my copy of "Ham Register" and appreciation goes to K8CX. Only wish this idea was carried out today! It (Register) is a cherished item for many.

Art had a BS from Pitt 1935. A radio engineer and operated a retail store in Indiana Pa.

Ron W8JPG of WKSU-FM in Kent said "Art had a Shangri-La type QTH high in the hills out side of town, with a good size array. Ron again; "Mom purchased our 1<sup>st</sup> TV from Art which was a small Crosley B/W with rabbit ears."

Lewis was a high ranker on the DXCC listings and operated himself from various frequent trips to Central and South American countries. He was known to be an outstanding C.W. man.

Indiana Pa has had its share of licensed amateur radio ops over the years and has a existing active ham radio club today. They love their annual Christmas tree special event. It is also was the home of actor Jimmy Stewart. A K8CX card.

Living to be age 90 is no easy matter. He must have had a good constitution backed by a good wife.

W8SU 2011
