

Warren E. Sladky - W8CTZ - WØZYX - *1928-2005* To Frank and Elgena Sladky of Cleveland, Ohio. Warren Ellsworth Sladky somehow was influenced to excellence with his blind state, it was amazing what he accomplished. Sladky would eventually move to Akron, Ohio.

Warren, blind since birth has been a ham operator since 1948 - A graduate of Kenyon College, a masters from Iowa State and Ohio State University. Our subject held a weekly discussion group Thursdays at 9-30 PM - "The Apricoter's held session on the 51 Meg band or if you will 6 Meters." The Old nemesis of TVI land.

Mr. Sladky had his own company "Wessian Specialties" which stocked ham gear and tape recorders. "Consult him for special adaptations." -said K8ABP in his summary.

Not much more is known about Warren, he expired at age 77 in the Akron City Hospital, he was widowed and disposition wished to be cremated. Warren left his DNA with us, per W8JYZ Old QSL Cards Dot Com and my good friend Ealon Lamphier K8ABP furnishing his file data thru his memoirs written in the Toomy J Gazette fall winter 1962 issue. Ealon also enjoyed 6 Meters and lives again to add his unique memory. Lets plant the apricot tree for the Sladky's! And one too for Ealon Lamphier.
