

**C**arl Forestieri \*1899-1966\* Of Bronx N.Y. - Considered one of the early NNRC (Newark News Radio Club) stalwart reporters. Carl was sorely missed when word was received he had an unexpected death in 1966.

Carl's listening post is vacant but his memory still exists. He was known as "The Bronx Owl" - We in the shortwave game know that late night and early morning normally brings the best DX monitoring. Could Carl have been a NY Yankee fan?
