

K6APL Is Issued to Bert Ira Gordon, of Beverly Hills, Calif. BIG born 24 Sept 1922 of Kenosha, Wisc., Educated at Univ. of Wisc. Madison. A writer, producer of TV commercials and Sci-Fi pro/director of horror "B" movies. "Mr. BIG" as he is known, is a reference to both his initials plus his preference in the technical end of making super sized characters.

There is more here than meets the eye with this licensed amateur operator and family man. Bert began making home 16mm movies when he was only age 9. Gordon began his career directing television commercials before moving to films in 1954 to produce Serpent Island. In 1957 he began his artistic association with American International Pictures.

It appears our subjects wife Flora has assisted technically along side Bert and he is appreciated annually as many celebrities lineup at the Monster Bash in Pittsburgh.

Not many of Big's number of films have received significant critical attention however his work has attained popularity in some circles. The cult TV show Mystery Science Theater (MST3K) has featured several of his Sci-Fi motion pictures. File picture of BIG adjacent.

Bert's daughter Susan Gordon, on the other hand has had much acclaim in the motion picture business and in past TV appearances. See our VIP tribute to Susan Gordon WN6OLL on Bob Greens W8JYZ.COM
