

**Lorin Hollander WA1PGB** - NYC born 19 July 1944 - Concert pianist, recording artist and conductor. This child prodigy made his first public appearance at the age of 5 years. As a musical prodigy, his Carnegie Hall debut commenced at the age of 11 years, with a continuously acclaimed 50 year National and International career.

Lorin performed with most major symphony orchestras in the U.S.A., and around the world. The New York Times music critic said Hollander in 1964 was the leading pianist of his generation.

Our subjects education started with N.Y. Public School and transferred to Professional Children's School and the Juilliard Conservatory School of Music NYC.

In the past it is mentioned Lorin had taken up conducting and is a popular public speaker. With many awards, recording sessions, vinyl and tape music, TV/Radio and film appearances, we are pleased to be aware of this gifted talent who is one of us in the "Ham" fraternity.

Don't take my word for it, "Check Out" Mr. Hollander's music on You Tube, the fidelity is very good and enjoyable. His commercial recording efforts are still available.
