Visit Susan's website on www.susangordon.info

Today, Susan has a busy celebrity schedule on the personal appearance and convention circuit along with being a successful businesswoman. (Chief Information Officer for an industrial products company, a Computer Graphics Designer specializing in 3-D computer graphics and computer animations.)

She is the proud mom of six wonderful children.

If you enjoy movies, Susan Gordon still can be seen on DVD with a good portfolio yet available.

Susan was one of our amateur fraternity and got a thrill out of being able to communicate via CW. She got started in Ham Radio by her father K6APL's amateur activities. Her mother Flora became WN6OVW who worked her code speed up to 11 WPM, but gave up her studies to help Susan with her acting career, which she started at the age of 8.

We could easily write about Bert Gordon, K6APL & his VIP status in the industry. Bert has been licensed since 1943 and particularly enjoys SSB operation. His station then consisted of the Collins S-Line, Gonset amplifier and Hi-Gain Tri-bander on a 65 foot tower. I'm sure we have not heard the last of the Gordon's.
